

Summer Research and Analytics Intern

Description

Join the Johns Hopkins University (JHU) GovEx Research and Analytics team this summer and gain hands-on experience working with real-world data to drive meaningful change in communities.

As a Summer Research and Analytics Intern, you will:

- Assist in researching, reviewing, and assessing new data sources for analytical tools.
- Evaluate existing city data sources for accuracy and completeness.
- Conduct literature reviews to support key metrics development.
- Develop custom calculations by analyzing data, sources, and geographic scales.
- Support data visualization, storytelling, and transformation to communicate insights effectively with the design of infographics and explainers.
- Help compile, review, and analyze resources to strengthen research efforts.

Why Join GovEx?

Working at GovEx means joining a dynamic team committed to improving the lives of people living in cities around the world through data-driven, innovative solutions. GovEx is a recognized leader in the provision of public sector training to upskill employees and improve data practices through self-guided courses and instructor-facilitated learning.

This internship is an excellent opportunity to develop data analytics, data engineering, research, and problem-solving skills while contributing to projects that improve city governance. You'll collaborate with experts and gain valuable experience in data-driven policymaking. *Note:* Not all interns are expected to complete every task. Managers will assign tasks based on each intern's skills and interests.

Internship Details

- Summer 2025 (Monday-Friday, up to 20 hours per week)
- Hybrid work environment - Based in Baltimore, MD (In-person 1-2 days per week)
- Pay: \$20 per hour
